

The Memphis Business Journal recognized ProTec's federal STARS designation last week.

A new federal designation could result in up to \$50 million in increased revenue for cabling infrastructure company **Professional Technologies Inc.**

ProTec recently was awarded an 8(a) STARS II designation from the U.S. General Services Administration that gives the company the ability to bid on \$10 billion in federal contracts over the next five years. The designation also has a five-year renewable option, so it could result in 10 years of federal work for ProTec.
